PROFESSIONAL TESTIMONIAL

I have had the opportunity to interact with Mr. Gitanj Sheth on business and strategic matters and have been impressed by his overall approach to problem-solving.

Mr. Gitanj combines strong analytical ability with a practical understanding of business issues. He is capable of structuring an ambiguous problem, analysing relevant information, considering alternative approaches and discussing the potential implications of different solutions.

His technical background in computer science adds another dimension to his ability to understand technology-enabled business opportunities.

What I found particularly impressive was his intellectual curiosity, clarity of thought and willingness to examine a problem objectively before reaching a conclusion.

Based on my interactions with him, I believe Mr. Sheth has strong potential for a career in management consulting, strategy, business analytics and technology-driven transformation. I would be happy to recommend him for appropriate professional opportunities in these areas.
