

LEETER OF APPRECIATION FOR PROFESSIONAL CAPABILITIES

Dt. 15-09-2026

I have had professional interactions with Mr. Gitanj A. Sheth and have been impressed by his commercial understanding.

He has the ability to consider a business problem from multiple perspectives rather than looking at it purely from a technical or academic standpoint.

His discussions demonstrated awareness of customers, costs, scalability, implementation challenges and long-term business implications.

For someone at an early stage of his career, I found this breadth of thinking particularly noteworthy.

I believe Mr. Gitanj has the foundation required to develop into a strong strategy and management consultant. I recommend him for assignments fit to his experience and qualifications.
