

Dt. 12-03-26

-: Appreciation Certificate: -

We interacted with Mr. Gitanj Sheth regarding certain operational and process-related matters within our educational organisation.

Gitanj demonstrated an ability to look at the complete process rather than concentrating on a single activity. He tried to understand how different stakeholders, systems and processes interacted with each other.

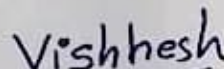

His questions helped bring greater clarity to the issue and highlighted areas that required closer examination.

I particularly appreciated that he did not make assumptions without first understanding the available information.

His structured thinking and ability to simplify a complex process were valuable during our discussions.
