

M. M. BROTHERS

Certificate of Appreciation

To Whomsoever it May Concern,

12th Nov. 2025

I have interacted with **Gitanj Sheth** on matters involving business analysis and financial decision-making.

I was impressed by his ability to understand financial and commercial information and evaluate it from a broader business perspective.

Mr. Gitanj approaches problems logically and systematically. He is particularly comfortable analysing information, identifying relevant variables and presenting his observations in a clear and structured manner. His technology background also gives him an interesting perspective on how data and digital tools can be used to improve business decision-making. I found him professional, articulate and highly analytical, and I believe he has significant potential in strategy, analytics and consulting.
